PROFESSIONAL SUMMARY

Analytical Fintech Quality Assurance (QA) & Process Optimization Lead with extensive experience designing audit rubrics, monitoring operational accuracy, and boosting cross-functional performance for global brands like Stripe and Visa. Expert in technical compliance, root-cause analysis, and systematic workflow enhancements. Combines a data-driven approach using Power BI, SQL, and N8N automation with targeted coaching to eliminate operational errors and maintain strict compliance with global financial frameworks.

TECHNICAL SKILLS & CORE COMPETENCIES

Quality Assurance & Audit: Technical Auditing (40+ audits/week), Quality Calibration, Performance Coaching, Root-Cause Analysis, SLA Management, Compliance Auditing.

Fintech & Regulatory Operations: Visa Regulatory Frameworks, VROL, Stripe Dashboard, Merchant Account Audit, 1099 Compliance, Fraud Investigation.

Process Automation & Data: N8N Automation, Power BI (Advanced Metrics), SQL Data Validation, Google Apps Script, Process Systematization.

Tools & Software: Confluence, Jira, Lumos, SINCO ERP, Slack, Google Workspace (Advanced Sheets).

PROFESSIONAL EXPERIENCE

Visa | Fraud & Dispute Specialist

March 2026 – June 2026

- Enforced strict technical compliance and regulatory alignment across high-velocity financial dispute cases.
- Developed internal triple-check audit frameworks and custom tracking sheets to maintain zero operational defects during complex dispute resolutions.
- Performed root-cause analysis on complex transactional evidence to mitigate chargeback risks and validate dispute rights.

Stripe | Fintech Operations & Quality Lead

August 2024 – March 2026

- Spearheaded a site-wide operational Booster Campaign, driving a 35% increase in team productivity by identifying and removing workflow bottlenecks.
- Conducted over 40 technical quality audits per week using standardized grading rubrics, delivering structured, data-driven coaching to operational agents.
- Oversee missing payout investigations and merchant account compliance checks across multiple support and operations channels.
- Audited 1099 tax reporting configurations and merchant payout schedules using Stripe Dashboard and Lumos, ensuring error-free execution.

OnTarget Colombia | Project Coordinator & Systems Specialist

May 2022 – August 2024

- Optimized lead conversion processes by designing an automated documentation system and response library, significantly reducing response cycles.
- Managed data integration between SINCO ERP and internal sales teams, ensuring high data integrity and real-time visibility for management.
- Prevented operational failures in large-scale events through proactive risk mapping and precise logistical coordination.
