PROFESSIONAL SUMMARY

Versatile Technical Executive Assistant & Operations Coordinator with a unique combination of high-touch stakeholder management, C-suite support, and technical automation capabilities. Proven track record in orchestrating high-stakes client relationships, large-scale corporate event logistics, and optimizing operational workflows for international tech environments. Leverages expertise in low-code development, AI assistants (Cursor, Copilot), N8N, and Google Workspace to streamline executive administrative tasks and maintain zero-defect operational execution.

KEY COMPETENCIES & TECHNICAL SKILLS

Executive Support & Operations: High-Touch C-Suite Support, Stakeholder & Client Relationship Management, Vendor & Catering Logistics, Corporate Event Planning, Schedule & Workflow Optimization.

Automation & Systems: N8N Process Automation, Google Apps Script, Advanced Sheets/Docs, Notion Workspace Architecture, Vercel Deployment, VS Code.

AI & Tech Proficiency: AI-Assisted Workflows (Cursor, Copilot, Codex), Web Analytics, CRM Synchronization, Data Structuring (Power BI, SQL).

Collaboration Platforms: Slack, Confluence, Microsoft Teams, Google Workspace, SINCO ERP, Stripe Dashboard.

PROFESSIONAL EXPERIENCE

Visa | Fraud & Dispute Specialist

March 2026 – June 2026

- Managed complex financial dispute resolution workflows with high precision, maintaining 100% adherence to global technical standards and strict SLAs.
- Designed custom organizational frameworks and Sheets-based tracking mechanisms to execute high-velocity case processing with a zero-error rate.
- Prepared detailed technical reports and real-time status updates for cross-functional managers and international stakeholders.

Stripe | Fintech Operations & Quality Lead

August 2024 – March 2026

- Coordinated a cross-functional operational Booster Campaign that improved team productivity by 35% through targeted process optimization.
- Managed critical merchant operations, account documentation, and compliance tasks utilizing internal dashboards and system tools.
- Audited 40+ operational cases weekly, structuring data-driven feedback to elevate execution quality and operational precision.

OnTarget Colombia | Project Coordinator & Client Relations Specialist

May 2022 – August 2024

- Acted as the primary executive contact for C-suite directors of major real estate accounts, managing high-level partnerships and high-touch corporate relations.
- Coordinated end-to-end logistics for large-scale corporate launch events, managing vendor relations, catering, and public relations with zero operational errors.
- Engineered an automated response library and digital documentation system that drastically reduced response times and optimized executive communication workflows.
- Synchronized digital leads and operational data via SINCO ERP, providing real-time transparency and tracking to key executive stakeholders.
